

MEVO

ANYWHERE

MEVO Anywhere is a 911 call handling system available to public safety agencies that works whenever and wherever necessary to dispatch remotely. The system provides 911 and traditional telephone service for full-service 911 call handling.

A Leader in Next-Gen Core Services

YOUR MOBILE PSAP NO LONGER REQUIRES WHEELS.

The Facts

- PSAPs can connect to the ESiNet securely from any location that has access to internet.
- The advantage to MEVO Anywhere is that it has the ability to connect to ESiNet based resources that bypass the primary NG911 systems.
- Both 911 and PSTN call handling is available.

Key Features

- Process 911 and administrative calls
- Reroute call delivery systems
- 911 call back (single button)
- Formatted ALI display
- ALI data spills to CAD, MAP, etc.
- 911 and administrative call history
- Conference, transfer, barge, park
- Call logging and recording
- Mapping interface
